Career Objective

B.Tech graduate with hands-on experience in full stack development, REST API integration, and system-level debugging. Skilled in Java, Python, SQL, and modern frameworks like React and Spring Boot. Passionate about building scalable, secure backend systems and automating tasks using shell scripting on Linux platforms. Eager to contribute to technically challenging projects and grow in a development-focused environment.

Work Experience

Full Stack Development Intern   **May 2023 - July 2023**

Cipher Schools

- Gained hands-on experience with MERN stack: React, Node.js, Express, and MongoDB.
- Worked on a food ordering web app "Swiggato" from planning to deployment.
- Tested and debugged APIs using Postman, fixed integration issues, and submitted tasks on time.
- Collaborated with mentors and peers to solve frontend/backend issues during development.

Projects

JOB PORTAL – FRONTEND (REACT + TAILWIND + CLERK + SUPABASE)   **Sep 2024 - Nov 2024**

Tech Stack: React, Tailwind CSS, Clerk, Supabase, Zod, Radix UI, Vite.

- Built a responsive job portal frontend with login/signup using Clerk and Supabase.
- Created accessible UI components using Radix UI, with form validation via Zod and React Hook Form.

Swiggato-Food Delivery Platform   **May 2023 - July 2023**

Tech Stack: React, MongoDB, JavaScript, NodeJS, Json | Web Application

- Developed a frontend web app inspired by Swiggy using React and backend APIs.
- Implemented features like menu display, cart system, and order placement.
- Handled API call failures and debugged integration issues during development.
- GitHub Repository Link: https://github.com/gaurav8299/Swiggato-Food-Delivery-Platform

JOB APP – COMPANY & JOB MANAGEMENT BACKEND (JAVA SPRING BOOT)   **Mar 2024 – Apr 2024**

Tech: Java, Spring Boot, MySQL, Postman, Maven.
- Built REST APIs for managing companies, jobs, and reviews using Spring Boot and MySQL.
- Enabled full CRUD operations with secure endpoints and tested via Postman.
- Handled API debugging and resolved integration issues during testing phase.
- Documented bugs and collaborated with teammates for resolution, simulating real-time production support scenarios.
- GitHub Repository Link: https://github.com/gaurav8299/Job-App-Using-Spring-Boot

Shell Script – Auto Backup & Archiving Tool (Mini Project) (Shell Scripting + Linux)   **Jul 2024 – July2024**

Wrote bash scripts to automate daily backup of specific folders with timestamped compressed archives.

Used cron, tar, grep, and find commands on Ubuntu.

Ensured automation and error logging for unattended use cases.

Certifications

Full Stack Development   **Feb 2024**
Cipher Schools —certificate link

Machine Learning   **July 2023**
Tech-Gyan —certificate link

Achievements

- Finalist – **Smart India Hackathon 2023**
- Solved **280+ DSA Problems** on LeetCode

Technical Skills

Languages: Java, JavaScript, Python, C++, SQL

Frameworks & Libraries: React, Node JS, Express, Spring Boot, Tailwind CSS, Radix UI

Tools & Platforms: Git, Postman, MySQL, Mongo DB, Adobe Photoshop, Vite, Ms Project

CRM & Issue Tracking: Freshdesk (basic knowledge), Jira (familiarity)

Operating Systems & Scripting: Linux (Ubuntu), Shell Scripting (bash), cron, tar

Other Skills: RESTful APIs, Data Structures, Algorithms, Debugging, Command-line Tools

Education

Lovely Professional University Punjab   **2021 – 2025**

Computer Science and Engineering — CGPA: 7.42   *Jalandhar, Punjab*
